It is mandatory that all individuals seeking to participate in this program attend this session.

This is a two-part session broken into:

1. An information presentation followed by;
2. A selection session for eligible individuals.

To book a place and check your eligibility, please contact Ashleigh at Ginninderry on **1800 316 900** or [ashleigh@ginninderry.com](mailto:ashleigh@ginninderry.com)

### Where

**Uniting Care Kippax**

Cnr Luke Street and Hardwick Cres Holt

### Costs

This project receives funding support from the ACT and Australian Governments through the Future Skills for Future Jobs Grants Program, under the National Partnership on the Skilling Australians Fund.

Project funding eligibility and subsidy criteria apply—if these are met there will be limited costs to participants.

Master Builders ACT together with SPARK and our partners are proud to launch this innovative training program to encourage more women to consider a career in the civil construction industry. Civil construction is an exciting part of the sector with interesting roles across the planning, design and creation of major infrastructure projects and this program will provide participants with specialised accredited training and employment pathways.

Please note, those individuals who wish to be considered for this program **MUST** successfully complete a functional capacity assessment (which includes drug and alcohol testing) before being offered a place on the program.

Specifically targeting women from the ACT, this program will:

- Provide participants with seven core units of competency and a pathway into a qualification in civil construction
- Provide participants with 10675NAT - Asbestos Awareness
- Provide participants with CPCCWHS1001 – Prepare to Work Safely in the Construction Industry – White Card
- Provide a range of interesting workshops including resilience, mental health and wellbeing, time management and more
- Provide a four-week work placement within the civil sector with one of our partner contractors
- Provide guaranteed jobs for successful program graduates

Commencing Tuesday 28 April 2020, this 10-week program will run five days per week and be a combination of theory, practical hands-on learning and industry work placement.

The information session will provide individuals with advice on eligibility criteria, program content and the commitment that is required to be selected as a participant on this program.

SPARK and Master Builders ACT acknowledge our program partners and thank them for their participation.
