

Ms Imogen Featherstone  
Project Planning Manager  
Riverview Group  
1 McClymont Way  
Strathnairn ACT 2615

Dear Ms Featherstone

**West Belconnen (Ginninderry) Strategic Assessment – Annual Report 2020-21**

Thank you for the West Belconnen (Ginninderry) Strategic Assessment Annual Report 2020-21 (the report) and for incorporating our comments. We found the report to be informative and that it provides important insights into the progress made against the Approval conditions during the reporting period.

We have identified some matters we would like addressed in next year's report:

- **Condition 13** of the Approval for the strategic assessment relates to cat containment in the new suburbs. Reporting for this condition on pages 21 of the report indicates that cat containment be mandated through changes to relevant instrument under the provisions of the ACT Domestic Animals Act 2000. Please provide an update on whether this has been completed.
- Further to **Condition 13** of the Approval, the Ginninderry Conservation Corridor Management Plan indicates that regulatory compliance for cat containment is the responsibility of Transport Canberra and City Services. Please provide details on how this is being achieved.
- Please ensure documents referenced in the annual report are linked with functional hyperlinks e.g. Gooromon Grasslands Offset Management Plan.

I am available to discuss with you matters raised in this letter.

Thank you for your ongoing engagement on the delivery of the West Belconnen (Ginninderry) Strategic Assessment.

Yours sincerely

Miriam Gerrick  
Director  
ACT Assessments
