Yass Construction Program

SPARK, in partnership with TAFE NSW (RTO Code: 90003), headspace Yass and Yass Valley Council are delivering an innovative, accredited training program focusing on skills development, live training and potential employment within the construction sector.

Specifically targeting people living within the Yass Valley and surrounding region, this program will:

- Provide participants with a Certificate II in Construction Pathways (CPC20220) and a Certificate II Skills for Work and Vocational Pathways (FSK20119) upon successful completion.
- Provide industry specific training, delivering an infrastructure project for headspace Yass that will include concreting, paving, timber work, excavation and brick and block laying.
- Provide potential employment pathway opportunities, including apprenticeships.
- Supply an Industry induction card, Asbestos awareness card and Personal Protective Equipment for participants that successfully join the program.

Commencing Monday, 18 July 2022, this 11 week program will run 4 days per week (Mon–Thurs, 28 hours per week) and be a combination of theory and practical, hands-on learning and industry work experience. There are 15 places available on this program.

The information session will provide individuals with advice on eligibility criteria, program content and the commitment that is required to be selected as a participant on this program.
