OFFSITE WORKS PLAN

LEGEND

- FUTURE ROAD CONNECTION
- FOOTPATH & BIKE PATH CONNECTION TO FUTURE ROAD
- TEMPORARY SHARED PATH CONNECTION
- 450MM DIA. WATER MAIN CONNECTION
- TRAFFIC LIGHT JUNCTION
- PEDESTRIAN CROSSING

OFFSITE WORKS

To enable future development in the area, an associated Development Application referred to as Offsite Works, is being delivered as a part of the consultation process for the second Estate Development Plan for Macnamara.

Offsite works will address the road connection (and associated works) between Pro Hart Avenue and Parkwood Road. The offsite works will include the construction of a connection road between Pro Hart Avenue to Parkwood Road.

This road connection will include associated landscaping, a pedestrian path, and a cycle path. Included in this works package is a shared path connection from Pro Hart Avenue to the suburb of McGregor to enable a better connection into West Belconnen.

A water main is included in this works package to service the Ginninderry Development, this water main will be built along the proposed road alignment and continue along Parkwood Road to O'reilly Street, MacGregor.

JOIN THE CONVERSATION

A community consultation period will commence on Wednesday 26th July 2023 and conclude on Wednesday 9th August 2023.

During this time there are a few ways to learn more about the proposed Offsite Works Development Application and provide feedback:

- Chat to us today
- Leave a comment on a sticky note
- Visit <https://ginninderry.com/development-projects/> website to share feedback and stay up to date
